Compact, space-saving solution

Safety cable slot

55% Recycled Materials  
Proportion of recycled material used in production

## Tabidock® P5

Up to 5 laptops

Make it easy to move, store and distribute your digital devices

### Place your mobile devices closer to their point of use

Tabidock is extremely compact and easy to place anywhere. A simple power outlet is enough to make it ready for use.

### Easy access to tablets and quick charging

The tablets slide easily into the individual slots and the charging cable is immediately accessible for connection.

### Flexible integration thanks to foam storage modules

Several advantages: they allow tailor-made integration, a high level of protection of your devices and a smart power cables management.

Have your mobile devices recharged safely, ready to use, and for a long time!

### Integrated electrical safety

Your devices and your electrical installation are protected from peak loads and surges.

### Charging status display

The LED indicators allow you to know anytime when your devices are charged

### Optimised charging and protected batteries

With Tabidock, the charging time is always as short as possible: no waste, less strain and longer lifetime for the batteries!

A Nautic solution for all sectors of activity concerned by digitisation
